

(a) From retrieval to fitted evidence

*The retrieval corpus is the screening scope.
Every fitted quantity rests on a smaller cohort.*

(b) Candidate dispatch, by family

Iron chalcogenide 11-type

Iron pnictide 122-type

MgB₂-class

■ dispatched: family envelope emitted

■ refused: every target hit a refusal gate

84 of 183 candidate compounds receive at least one prediction.
